

## Case Study

# Gill & Jordan

**Jordan responded to our marketing on social media & Gill was personally recommended. They both help manage the Dirrty Harry's events but see the opportunity from two different angles.**

“ I love what Dirrty Harry's stands for & what it's trying to achieve', Jordan tells us. 'I'm from the Capital where, I guess we take things for granted. Dirrty Harry's acknowledges that there's nothing exciting for our community here in Preston & it's trying to do something about it... It also means I get cheap nights out & I get to meet loads of locals... My highlight has been helping to plan out 2017's calendar of events. ”

“ For me, it's about getting out of the house once in a while. People say I'm mad for choosing to help at a nightclub but, sometimes, I think it's quieter than my house. I get travel covered & I can claim for a sitter if I need so it's definitely worth it. It's nice seeing people come back & recognise me & it's nice being the one to give them their free drink. My highlight was being on stage helping to judge the best Halloween costume. I'd definitely recommend people get involved because there's so much more that we can do. ”

Like with all our volunteers, we offer Jordan & Gill support with CV writing, any other experience they may specifically want & provide them with a genuine reference if / when required.
